EXECUTIVE VICE PRESIDENT

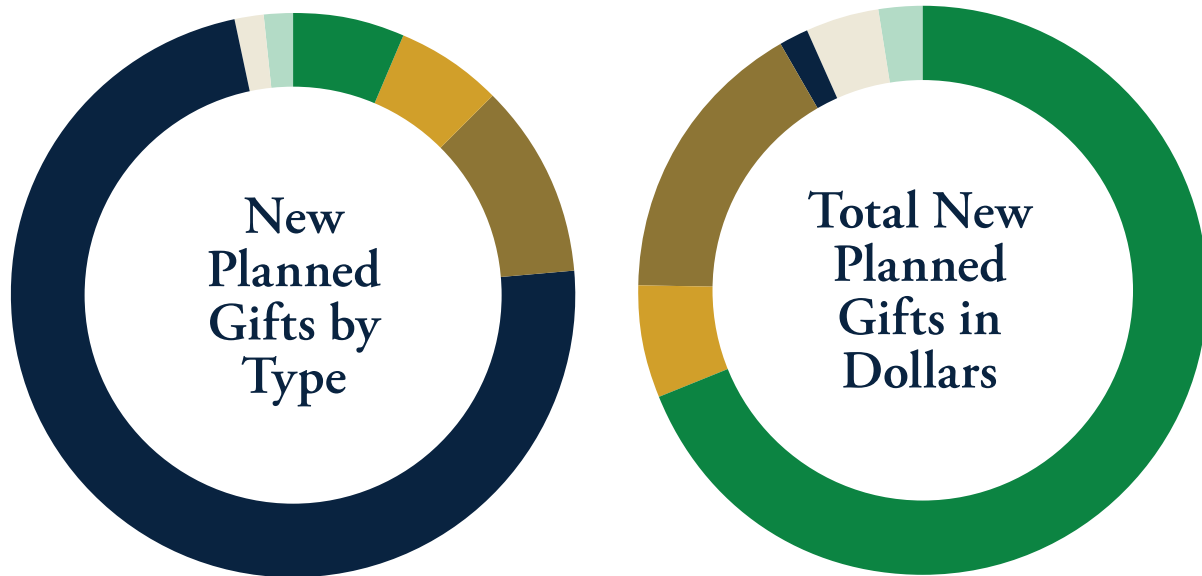

A Strong Foundation *for Tomorrow*

On behalf of Our Lady's students and scholars, we are thrilled to present your annual Badin Guild Impact Report, featuring testimonials and financial details highlighting the generosity of Guild members—from bequests to charitable remainder trusts, donor-advised funds, and IRAs.

During fiscal year 2025, benefactors made 2,661 new planned gifts totaling more than \$491 million, of which over \$115 million represented cash receipts. Over \$47 million in realized gifts were made available to the University as well. By including a gift to Notre Dame in their estate plans, these benefactors have left an enduring and life-changing legacy.

Ellen Margaret Richards Hayes was born in 1906 in Alpena, Michigan to Ella White Richards (born in Lancaster County, Pennsylvania in 1863) and John Richards (born in 1859 in Danzig, now Gdansk, Poland). Ellen was the 11th of 12 children.

In 1913, Ellen's brother, Thomas Daniel, arrived at Notre Dame, studied for the priesthood, and was ordained a Holy Cross priest, the first member of the family to attend Notre Dame.

Ellen's youngest brother, Ralph Richards came to Notre Dame and became the lead soloist of the Glee Club as a freshman, gaining a reputation as "another John McCormack ."

At St. Bernard High School in Alpena, Ellen graduated as Valedictorian, Captain of Girls' Basketball, and Church Organist. She had piano lessons from elementary school and was hired as the pianist to play the scores for silent movies when she was 13. She was paid 50 cents per show.

Although qualified and eager to attend college, Ellen took a position as an Assistant Business Manager at a local garment company. Her salary helped support her brothers' education as well as her nephew who received his JD from Notre Dame Law School. Ellen married her high school classmate, John Hayes, in the Log Chapel at the height of the 'Great Depression'. Fr. Thomas Richards, C.S.C., celebrated the Mass.

"Knowing my Mother's many talents and abilities, I am certain she would have been a very successful college student. However, family finances limited her educational options. The Ellen Margaret Richards Hayes Scholarship is my attempt to provide financial support to talented young women who will thrive at Notre Dame and beyond."

Other	\$738,455
\$19,334,437	

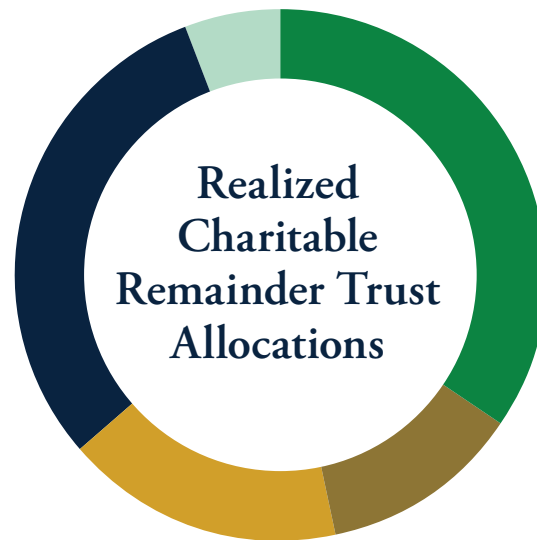

“Establishing a charitable remainder trust with Notre Dame allowed us to support the University in the future while creating a stream of income and tax benefits for the present. Knowing that our gift today can be the foundation of so much good tomorrow is inspiring. We’re proud to leave a legacy for future generations of Our Lady’s students.”

“I was first introduced to a Notre Dame Donor Advised Fund after leaving a long term employer. It was going to be a big income year, and I wanted to make donations that aligned University needs with my areas of interest, but I needed some time to find that alignment. The DAF enabled me to make that initial donation and to have flexibility in grant timing and focus. I have continued to add to the DAF, making grants from it when I am moved by needs at Notre Dame and at other qualifying organizations. The flexibility on donation timing and ease of making grants have made the DAF a great tool for my support of Notre Dame.”

“The whole-person education Notre Dame offers helps graduates become the leaders we need in healthcare. Creating a scholarship for preprofessional students allowed us to honor the legacy of Elaine’s parents while sharing the gift of quality education with future generations. It’s gratifying to know that our family’s resources will go on to make an impact on a young’s person’s life, in Our Lady’s name.”

“Thank you for your steadfast dedication and generosity to Our Lady's University. Like Fr. Badin, who planted the seeds of Notre Dame's founding, you are creating a legacy for generations to come. Notre Dame's distinctive mission as a global Catholic research university has never been more important, as we prepare leaders of courage, integrity, and compassion while conducting groundbreaking research to address some of the world's most pressing challenges. Know of my profound gratitude and my prayers for you and your loved ones.”
